## **Summer Vacation Holiday Homework (2022-2023)**

### **Guidelines**

Dear Parents,  
Warm Greetings!

“Learning is not the product of teaching.

Learning is the product of the activity of the learners.”

Learning never stops we all learn something new every moment. This session started with a new beginning after 2 long years of the pandemic. Now after the physical resumption of the offline classes we are on the verge of starting with their summer vacation.

Holiday is the time that children eagerly wait for. They all make plans to enjoy, to relax and to empower themselves during these gala days. This summer vacation the Holiday Homework so designed by the mentors of the school is a medium for them to achieve the motto of “Fun and Learn”

The activity-based assignments will foster curiosity, develop creativity, enhance knowledge and instil the joy of learning amongst all children. They will certainly help them to discover a new person who is more enriched and confident and performs every action to perfection.

**The school also desires the children to adhere to the following guidelines for a fulfilling break:**
